

1 CLIENTS TAB

Click the Clients tab on the left-hand navigation sidebar of SimplePractice.

2 CREATE CLIENT

On the right-hand side, locate and click the Create Client button to open a new client record.

3 CHANGE STATUS

Set the client status to Active using the status dropdown. Prospective status limits intake tracking — do not leave it as default.

4 ADD CONTACT INFO

Enter the client's email address and phone number. An email is required to grant Client Portal access and send intake forms.

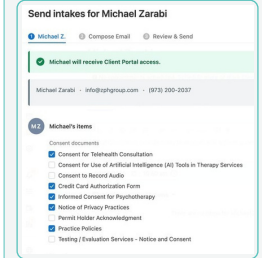

5 SET NOTIFICATIONS

Enable all radio buttons so the client receives upcoming appointment reminders, cancellation alerts, and incomplete document nudges via email and text.

6 SEND INTAKES

A list of intake forms pre-selected by ZPH Group appears. Review the list and confirm all required forms are included before proceeding.

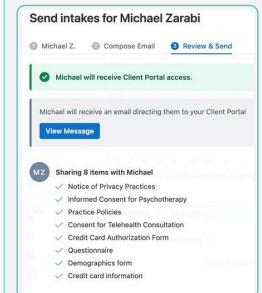

7 COMPOSE EMAIL

A pre-formatted intake email will be shown. The default text is approved by ZPH — send it as-is unless you have a specific reason to customise.

8 REVIEW & SEND

On the final review screen, confirm the documents scheduled for delivery, then click Send to deliver everything to the client's portal.

9 MINOR CLIENT

Select Minor as the client type. Navigate to the Contact tab and add the guardian's legal name. Mark the guardian as Responsible for Billing.
